Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

Keith Mark Hickling and Charles Philip Hickling are varying the existing licence to include other waste activities such as storage of Waste Electrical and Electronic Equipment, End of Life Vehicle De-pollution, Scrap Metal Recycling and to increase the waste quantities accepted at the site from 25,000 to 75,000 tonnes per annum.

Also, the operators have requested that all the old waste management licence conditions should be updated to the modern Environmental Permitting Regulation conditions.

The Schedules specify the changes made to the permit.

Schedule 1 of this notice lists any changes to the original permit. Schedule 2 of this notice contains the varied and consolidated environmental permit including a revised site plan.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
